

TRENDS

At **TRENDS** we are committed to the ethical treatment of workers and protection of the environment across our supply chain.

An important part of this commitment involves being a member of **SEDEX**, the online platform that allows companies to connect and share information, working to continually improve employment and environmental responsibility globally.

TRENDS also took part in a full **SMETA** audit in 2020. **SMETA** (Sedex Members Ethical Trade Audit) audits are based on the Sedex's four pillars of Labour, Health & Safety, Environment & Business Ethics.

SEDEX membership allows us to provide assurance to our customers that we will strive everyday to embody the values that this organisation represents.

Sincerely,

Emma Ramsay

Procurement Manager
